

GAYATRI SINGULURI

Aspiring Software Engineer | Passionate about AI, Web Development & Data Analytics

 gayatrisinguluri@gmail.com |  +91 8639533237 |  LinkedIn: [linkedin.com/in/gayatrisinguluri](https://www.linkedin.com/in/gayatrisinguluri) | GitHub: github.com/gayatrisinguluri

SUMMARY

I am a curious and dedicated engineering student with a strong passion for Artificial Intelligence, Web Development, and Data Analytics. I enjoy transforming ideas into meaningful projects that make technology accessible and useful. With hands-on experience in Python, JavaScript, and Java, I have contributed to machine learning models and full-stack web applications that enhance user experience and data efficiency. Eager to learn, grow, and collaborate on projects that combine innovation with real-world impact.

EDUCATIONAL QUALIFICATIONS

KIET Group of Institutions, B. Tech in Artificial Intelligence and Data Science	Sep 2022 – May 2026
Janaki Junior College, Intermediate	Jul 2020 – Apr 2022
Sri Bharathi Residential School, SSC	Jun 2019 – May 2020

SKILLS

Category	Skills
Programming Languages	Java, Python, C, JavaScript.
Web Technologies	HTML, CSS, React, Node.js, Fast API, HTML5, CSS3
Tools & Frameworks	Spring, Spring Boot, JUnit, VS Code, Flask, Scikit-learn, Matplotlib, Figma
Databases	SQL, MySQL, MongoDB
Testing Tools	Postman, Selenium
Version Control	Git, GitHub
Cloud Platforms	Google Cloud Platforms, Google Workspace, Email API

ACADEMIC PROJECTS

➤ Heart Attack Prediction using Machine Learning

Built a predictive model that analyzes clinical and lifestyle data to assess heart attack risk using ML algorithms. Optimized model accuracy through feature selection and cross-validation, achieving 92% prediction accuracy.

Tools & Technologies - Python, Scikit-learn, Pandas, NumPy, Flask, HTML, CSS

➤ **Sales Forecast Prediction using Machine Learning**

Developed a regression-based model to forecast future sales using historical data, improving business planning and demand prediction. Achieved 89% forecast accuracy through model tuning and data visualization.

Tools & Technologies - Python, Pandas, NumPy, Scikit-learn, Matplotlib, Seaborn

➤ **Medical Reminder System using Machine Learning**

Designed an intelligent reminder system that predicts, and schedules medication alerts based on user habits and medical history. Enhanced patient adherence using ML-based reminder optimization and automated notifications.

Tools & Technologies - Python, Flask, Scikit-learn, MySQL, Twilio API, HTML, CSS, JavaScript

➤ **Hack Track – Hackathon Management Website**

Collaborated with an 8-member team to build a web-based hackathon management system inspired by the Smart India Hackathon (SIH) platform. Developed interactive modules for user registration, event tracking, and automated email notifications.

Tools & Technologies - HTML5, CSS3, JavaScript, Figma, GitHub, VS Code, Google Workspace, Email API

INTERNSHIPS & CERTIFICATIONS

INTERNSHIPS :

EDVedha Pvt. Ltd., Hyderabad (May 5 – July 5)

Gained hands-on experience in Cloud Computing and Networking Services, including setting up virtual environments and understanding network layers.

IIIT Hyderabad (Oct 28 – Mar 25)

Worked on Natural Language Processing (NLP) and Speech Analytics, exploring how AI interprets and analyzes spoken data for enhanced human–computer interaction.

Vidyanth Pvt. Ltd., Hyderabad — Web Development Internship (June 5 – August 15, 2025)

Developed and optimized responsive web pages using HTML, CSS, and JavaScript.

Collaborated on frontend UI improvements to enhance user experience.

Google Cloud Generative AI Internship — AICTE (January 7 – April 19)

Gained hands-on exposure to Generative AI, Google Cloud services, and AI-driven application development.

Explored model deployment and cloud-based automation workflows.

Certifications

Full Stack Python Application Development

Learned to design and deploy end-to-end web applications with emphasis on scalability and performance.

Pre-Placement Training (Nov 27 – Dec 8, 2024)

Strengthened knowledge in Machine Learning, Deep Learning, and interview preparation topics.

Deep Learning Certification — Eduskills

Gained foundational understanding of neural networks, CNNs, RNNs, and deep learning applications.

Machine Learning Certification — Infosys Springboard

Developed strong skills in ML algorithms, preprocessing, model evaluation, and real-world ML case studies.

Junior Developer Certification — IIIT Research Center, Hyderabad

Completed hands-on training on developing modern websites, including frontend design, responsive layouts, and basic backend integration.

ACHIEVEMENTS

- Won multiple hackathons and coding competitions on Hacker Rank and Leet Code, showcasing strong analytical and problem-solving skills.
- Recognized with Certificates of Excellence in Python, Machine Learning, and Web Development for outstanding academic and project performance.

EXTRA & CO-CURRICULAR ACTIVITIES

- I volunteered as a member of the National Service Scheme (NSS), contributing to community service and leadership initiatives.
- Played an active role in event management and coordination, enhancing organizational and teamwork abilities.
